Project Finance – decision process and FAQs

PROJECT FINANCE WITH FEDERAL EXPORT CREDIT GUARANTEES (HERMES COVER)

The Official Export Credit Guarantee Scheme has been protecting German exporters and banks since 1988 successfully against the risk of non-payment arising in connection with project finance transactions. Since then transactions in all business sectors have been covered (e.g. Telecom, Power, Mining, Oil & Gas, Petrochemical Industry, Steel, Transportation Systems).

This kind of business also falls under the common Guarantee Scheme of the German Government. However, due to the complexity of project finance deals the decision process has some special elements, which we would like to highlight hereafter.

All decisions with regard to project finance transactions are made by the **FEDERAL REPUBLIC OF GERMANY** in an Interministerial Committee (IMC). These decisions are prepared in a special working council, in order to accelerate the decision process in the IMC. This council consists of project finance specialists from the ministries and **EULER HERMES KREDITVERSICHERUNGS-AG**.

A further specialty of project finance transactions is that an experienced auditing company has to examine the economic, legal and financial viability of the project. The auditing company has to assess the underlying risks of the project from the perspective of the risk-taker, i.e. the Federal Government. The applicant may select and commission the auditing company according to the preconditions as laid out in Hermes Cover Special on the Expertise for Project Financing and Structured Finance of March 2004.

THE THREE-STEP DECISION MAKING PROCESS

STEP 1: INDICATION

STEP 2: PRE-ASSESSMENT

STEP 3: APPROVAL

FAQS:

HOW LONG DOES IT USUALLY TAKE TO GET A DECISION FROM INDICATION TO FINAL APPROVAL?

In a standard project finance case, the full threestep decision process normally takes approximately six months. The first two steps can be taken fairly quickly, often in a matter of weeks. However, in order to get (preliminary) approval, the project must have progressed to a point in time where negotiations have resulted in final drafts of all relevant project documents. So effectively the timing is largely dependent on how quickly these documents can be made available to Euler Hermes and the auditing company.

HOW MUCH IS THE REPORT BY THE AUDITING COMPANY LIKELY TO COST?

The cost of the report will be agreed upon between the applicant and the auditing company. Euler Hermes does not have information on the rates charged by the various auditing companies.

HOW CLOSE IS THE COOPERATION BETWEEN EULER HERMES AND THE AUDITING COMPANY?

The auditing company supports Euler Hermes and the Federal Government in the decision process. In that context the task of the auditing company is to assess the viability of the project on the basis of the documentation received, since Euler Hermes does not accept any documentation risk. There is usually a close cooperation between the auditing company and Euler Hermes so that any potential concerns can be identified at an early stage.

DOES EULER HERMES WISH TO PARTICIPATE IN THE NEGOTIATION PROCESS?

Euler Hermes does not normally participate in the negotiation process. Nevertheless, especially in multisourcing transactions where several ECAs are involved in the financing and where it is crucial to establish a common position as soon as possible Euler Hermes is prepared to join the other institutions in negotiating the terms of the transaction.

DOES EULER HERMES GET INVOLVED IN THE PROCESS OF SELECTING LENDERS' COUNSEL (TECHNICAL, ENVIRONMENTAL, LEGAL OR OTHER)?

Yes, especially in large multi-sourcing transactions where Euler Hermes is involved in negotiating or structuring the deal.

IS EULER HERMES IN GENERAL PREPARED TO UNDERTAKE SITE VISITS?

Yes, on a case-by-case basis. Especially in large multi-sourcing transactions and in cases where there are environmental concerns we do take part in site visits.

DOES THE PREMIUM OR THE COVER SCHEME DIFFER FROM CORPORATE FINANCE TRANSACTIONS?

No, there is fundamentally no difference. Project finance transactions are covered under the general cover scheme like corporate finance transactions and the premium is basically calculated in the same way.

ARE THERE MINIMUM CRITERIA FOR THE SECURITY PACKAGE THAT EULER HERMES REQUIRES?

Euler Hermes does not have a catalogue of minimum criteria to be applied to each and every project finance transaction. Nevertheless, Euler Hermes expects the security package to contain the typical project finance elements adequately mitigating the inherent project risks. There are no strictly defined elements which by themselves would make or break a deal, the overall package has to give the Lenders sufficient comfort.

IS THE OFFICIAL COVER POLICY ALSO OF RELEVANCE FOR PROJECT FINANCE TRANSACTIONS?

It is likely that the official country cover policy will be applied even more flexibly, especially in projects which generate hard currency.

Oliver Wendland/Jens Kruse

Cover from the Federal Republic of Germany for business transactions abroad

The German Government supports German business ventures abroad with its Export Credit and Investment Guarantee Schemes as well as the Untied Loan Guarantee Scheme, thus securing economic growth and safeguarding jobs. To this end, the Federal Republic of Germany provides guarantees against commercial and political risks in connection with export transactions as well as against the political risks of foreign direct investments. In addition to this framework, it is also possible to cover the commercial and the political risks of untied loans relating to projects which are in the overriding national interests of Germany.

The German Government has mandated a consortium formed by Euler Hermes Kreditversicherungs-AG and PricewaterhouseCoopers Aktiengesellschaft Wirtschaftsprüfungsgesellschaft to manage these promotion schemes.
